## WHAT MINIMUM AMOUNT OF TOOLS ARE NEEDED TO GO ON THE ROAD?

As a somewhat new model a owner I've been thinking about this quite a bit.

The few of you that have had the pleasure of being around when I have ventured onto the road can expect something to happen to my car. If you talk to John Lucia he will tell you about the numerous times that we have pushed, or towed my car or truck back to home. I can only hope that my luck will be changing.

So without loading one hundred pounds of tools into the car, what should we be keeping under the seat?

This is the question I'm putting to the old-timers

# BLUE ISLAND A SUCCESS

**C**ongratulations to Irvan, and Charlene Darnell for having been able to complete their car to a running condition. Anybody but anybody would never thought that this car would have

Tim too! I'm not alone. What has been done so far is very, very, nice!

been on the road after seeing it this winter. O.K. ,I defiantly didn't think he would have done it. Oh, theirs John, and Chuck, and

Despite the rain in the morning nine cars made it to Blue Island. Tom Dockweiler (F.N.B. President) and Jim Jurich (F.N.B.-V.P.) were absolutely thrilled about the turnout. Only 13 cars that were registered didn't show! They seem to want to do it again next year. If the effort on the banks part is the same; they should double the amount of cars showing. This is a nice event for everyone! Thank you Tom, and Jim for all your work.

## SOME DATES TO REMEMBER

O.K. I waited till 11:00 for John Ruppel to call me back and confirm these dates and he didn't; soooooooooo..... I will not be responsible! I mean ,I will not be held responsible for accuracy of the dates. THANK YOU VERY MUCH.
